Washington, DC 20554

Dear The Federal Communications Commission,

Dear sir, I do not own a cell phone but a tracfone because of the high monthly rates. It is my understanding that you are seriously considering raising the amount that I pay in tax for my service. I find this unfair as my taxes are quite high in other things as it is. I pay over 30% of my income to taxes!! I live on a teacher's salary and have not recieved any increases in well over 5 years. However taxes and the cost of living keeps on rising. It's appalling.

In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

George Olguin teacher; San Diego

Sincerely,

George Olguin
